Oboe Full Conservatory Model .....\$ 3,195.00

Oboe with left hand F, articulated C#, and plateau low D key .....\$ 2,395.00

We are a direct importer of F. Lorée instruments from the factory in France. We receive shipments on a regular basis and have Oboes, English Horns, and Oboes d'Amore in stock. Gold-plated instruments, oboes to low A and special order instruments are usually available within four to six weeks.

All new instruments are thoroughly serviced before being made available for trial. This includes a check of pad seating and integrity of toneholes to ensure a perfect seal. Mechanisms are checked for tightness, and spring tensions are adjusted for evenness.

**Trial Policy:** All instruments are available on a trial basis. Shipping charges are included with the purchase of new instruments. A valid Visa, MasterCard, or Discover Card is required as security before we send any instruments on trial. Please contact us for further details.

**Warranty:** All new instruments are covered by a two year warranty which covers adjustments, tuning and repair of cracks. Total replacement of cracked section is covered for one year.

**Used Instruments:** We have a wide variety of used oboes, oboes d'amore, and english horns available. Because of the ever changing availability of specific instruments, and the inability to keep this catalog list current, we ask that you contact us for a current list, or see the list on our website at [WWW.MCWOBOE.COM](http://WWW.MCWOBOE.COM).

## THE MCW OBOE

---

### *Handcrafted Excellence for the Serious Student*

#### THE BODY

Selected Mozambique Grenadilla wood is carefully seasoned to make an instrument with exacting internal dimensions and superior tonal stability. All joints have metal sockets and metal tenon rings for added strength and security.

#### THE MECHANISM

All keys are made from nickel silver. Keys and posts are heavily silver-plated as well as being specially treated to prevent corrosion. A combination of cork and skin pads are carefully seated onto the MCW oboe to make an instrument with a truly professional mechanical feel and airtight vacuum.

#### THE FEATURES

In addition to the most commonly used conservatory fingerings and trills, MCW oboes also have as standard features: Left hand F, Articulated C#, Fork F Resonance, and Low B-flat Bell Resonance. Other options are available at additional cost.

#### THE TUNING

Each MCW oboe is hand tuned to play at A-440 using an American scrape reed. The bore is finished to very exact dimensions and individual tone holes are undercut to produce an instrument with subtle variation of response and tone colour.

#### THE ACCESSORIES

The MCW oboe comes complete with plush-lined case, shearling-lined case cover, reed case, swab, cork grease, polishing cloth and Humistat.

#### THE GUARANTEE

MARK CHUDNOW WOODWINDS will fix any mechanical defects or defects in the wood (including crack repair) without charge for two years from date of purchase. Total replacement of cracked section is covered for one year. Damage caused from negligence or abuse is not covered. Shipping and insurance costs are the responsibility of the purchaser.
